

Masterline

1) Large reflector nozzle

For shaping and shrink-fitting large diameters

Prod. no. 073015

(2) Window nozzle, 75 mm

Deflects to prevent panes of glass, etc. from overheating

Prod. no. 070410

(3) Surface nozzle, 75 mm

Spreads air over wider area for drying, paint stripping. etc.

Prod. no. 070212

(4) HL gun stand

Holds the gun in position for a variety of work processes

Prod. no. 075415

(5) Reflector nozzle

For soldering pipes and fitting heat-shrinkable sleeves

Prod. no. 070519

(6) Window nozzle, 50 mm

Deflects to prevent overheating in narrow spots

Prod. no. 070311

(7) Surface nozzle, 50 mm

Spreads air over smaller areas, e.g. for waxing skis

Prod. no. 070113

(8) Wide-slit nozzle

For welding plastic sheeting. Fits on 9 mm reflector nozzle

Prod. no. 074715

(9) Soldering reflector nozzle *

For soldering and shrink-fitting soldering sleeves and shrink-on tubing

Prod. no. 074616

(10) Reduction nozzle, 9 mm *

Pinpoint source of hot air for de-soldering and for welding PVC

Prod. no. 070618

(11) Reduction nozzle, 14 mm *

Pinpoint source of hot air for de-soldering and for welding PVC

Prod. no. 070717

(12) Reduction nozzle, 20 mm

For a focused jet of heat, e.g. for edgebands

Prod. no. 070816
