

# RAHMANN

Qualität für die Zukunft

Seite 1 von 1

**Technical Data**  
**Rotary drive**  
**Type: DTOM-50530/0,9-2e/S....**

REV: 1

**Construction:**

|                           |  |
|---------------------------|--|
| Engine torque:            | 45 Nm  |
| Clamping time:            | 0,9 sec.   |
| Brake:                    | integrated   |
| Fastening:                | flange   |
| Coating:                  | Permaflex PUR TEX 560 2K structure lacquer, color RAL 6011 |
| Additional installations: | ./.  |
| Miscellaneous:            | torque switch  |

**Rating of power:**

|                      |                                   |
|----------------------|-----------------------------------|
| Voltage / Frequency: | 500 V three phase current / 50 Hz |
| Insulation class :   | F                                 |
| Protection mode:     | IP 55                             |

**Class of rating:** S4

**Weight:** approx. 18 KGS
